NATURAL HEALTH FROM THE ALOE AND THE BEEHIVE

The weather doesn't seem to make up its mind. To help you out I have chosen a sunny beach picture for this month's newsletter. Summer WILL arrive! To further help you to get in the mood, Forever has launched the new Vitality range, making it easier for you to choose which products you need. I will let you into a secret. With the stop-start weather we have had lately, I have been using the Aloe Sunless Tanning Lotion. I don't think anyone noticed – until I told them, of course. So, if you would like a nice, natural-looking suntan, and you have missed out on our fleeting sunshine, I can highly recommend it. But please remember that your skin will still need protection from the sun (Aloe Sunscreen, SPF 30, waterproof 40 minutes, and soothing too) even though you look as if you have a nice suntan.

OUR TUBES ARE GOING NUDE!

As part of Forever's ongoing drive to reduce the amount of packaging the company produces, more products will now be sent out without their cardboard outer boxes. In addition to the Forever Bright Toothgel, which has had no box for several months, Aloe Propolis Crème and Aloe Lotion now follow.

Looking forward, the next products that are planned to be supplied without boxes are Aloe Vera Gelly, Aloe Heat Lotion and Forever Aloe Scrub.

You can be assured that the products will remain unchanged so that you can continue to enjoy the very best in aloe-based personal care, skincare, nutrition and makeup, safe in the knowledge that we are doing what we can to reduce our impact on the environment.
