NATURAL HEALTH FROM THE ALOE AND THE BEEHIVE

HAPPY EASTER! It suddenly feels like we've missed out Spring and gone straight into Summer – but maybe it will all be over and we'll be back into Winter by the time you read this! Either way, with the Olympic Games approaching, sport and physical activity will be on many people's menu. Whatever level of activity you are considering, good nutrition will not only help you with your general health, but will also make the most of your exercise and help you recover afterwards. The very best nutritional supplement you could choose just has to be Forever Aloe Vera Gel, and the Freedom drink helps maintain healthy joint function and flexibility. My favourite product, and if you are not already drinking it, give it a try!

Just for Men? – Maybe!

It seems that more and more advertisements for health and personal care products in the media are aimed at men of all ages. Ranging from hair treatments (some with 'interesting' claims!), shower gels, aftershave balms and deodorants to performance-enhancing sports drinks and supplements. The message is clear, men are expected to look after themselves and their appearance.

Whilst few products in the Forever range are exclusively for women (well, perhaps the make-up?) it could be easy to assume that the products are aimed at women; perhaps because, certainly for most of the twentieth century, women have been seen to be the major consumers of health and personal care products.

Well, it is now the twenty-first century, and men can step forward and take a closer look at what Forever offers the man seeking to be well turned-out and physically fit.

Shampoo & Conditioner

Looking after your hair not only looks good, but actually feels good too. Scalp and hair challenges range from being a mild nuisance to an embarrassing nightmare. Aloe Shampoo and Conditioner with Jojoba keep both the scalp and hair clean and healthy. The shampoo is mild but effective, and is suitable for all hair types.

Aloe Liquid Soap

Men's skin can get dry and rough, so a harsh soap is the last thing you need to use. This is a naturally moisturising, cleansing aloe-based

preparation with a mild formula making it perfect for the whole family. Sorry, you'll just have to share it! It is also excellent for shaving, leaving your skin smooth and fresh.

Aloe Ever-Shield Deodorant

Both very effective and long-lasting, and non-irritating making it suitable for the most sensitive of underarm skin, especially for people who shave under their arms (yes, men do that too now!). It has a mild, clean scent, and contains no aluminium salts.

Gentlemen's Pride

The very best aftershave balm you can use. Alcohol-free so it doesn't sting, with a range of lubricants and moisturisers to soothe and pamper irritated skin at any time. It has a clean, subtle fragrance, and it contains HA to keep the skin younger looking.

Supplements

Forever's supplement range is made from the finest quality ingredients, grown and collected from the best sources, and produced with the most advanced technology. Each product retains its original nutritional value to encourage good health and wellbeing. Speak to your Distributor (contact details below) and ask to see a Product Brochure.

Aloe Vera Gel

One of the most complete supplements you can imagine, Forever Aloe Vera Gel is probably just about the best to provide you with the nutrition your body needs to help maximise energy release during physical activity and to help you recover following exercise.

Imagine slicing open an aloe leaf and consuming the gel straight from the plant. Well, you can come as close as possible to doing just that by drinking Forever Aloe Vera Gel. This patented, stabilised Aloe Vera Gel is 'essentially identical' to the fresh gel of the inner leaf, and it was the first to receive certification by the International Aloe Science Council. Just pour some into a glass and you'll see the rich cocktail of pulp and liquid, that shows that this is an authentic product.

The aloe leaf contains over 200 different compounds. Forever Aloe Vera Gel is preferred by those looking to maintain a healthy digestive system and high energy levels. Use as a daily nutritional drink for good health, wellbeing and to balance the immune system.

Aloe Vera Gel at a glance:

- Maintains a healthy digestive system
- Maintains energy levels
- Can be used as a daily nutritional drink
- Balances the immune system
- Keeps for 5 years unopened – 3 months once opened (if kept refrigerated)
