NATURAL HEALTH FROM THE ALOE AND THE BEEHIVE

## EDITORIAL

*Well, I'm back, so I decided I needed a new photograph! For many reasons my newsletter has failed to make an appearance since the Summer, and what a lovely Summer it eventually turned out to be! Now we have Winter and Christmas to contend with.*

*A new season, and the new products mentioned in the last newsletter are now here and available for you to order. The FAB X is just as good as the FAB, but with no calories – ideal for people watching their weight. For the first time, Forever has a single tablet multi-vitamin in Forever Daily. An excellent addition to the range, and ideal to complement drinking the Aloe Vera Gel.*

*Don't forget that keeping our immune systems in good shape is probably more important during the Winter months than at any other time of the year. I certainly make sure I drink my Aloe (as Forever Freedom) every day, and keep the Echinacea Supreme on hand for that extra help when I need it. I'm looking forward to a happy, healthy Winter. Are you?*

*Robin*

*Wishing you all a very Happy Christmas and a Peaceful New Year.*

Make a Difference

**D**id you realise that every time you purchase something from Forever, through our charitable arm, Forever Giving, you are helping us to help those in need around the world?

Forever Giving is partnered with charitable organisations globally that share our passion for improving the human experience. By providing funds, facilities and education, Forever Giving is helping with immediate disaster relief as well as fighting against poverty, hunger, and the lack of medical services. As well as using money directly from Forever's own financial resources, Forever Giving is also providing a transparent means for individuals to give, knowing that the funds will reach those in need.

Everybody, at some point, feels the urge to give. Perhaps this motivation comes from an inner appreciation of the people around us, or a realisation that we have enough to spare a little, or maybe it comes from seeing the devastating effects of disasters throughout the world, whether man-made or natural. The challenge then is how to give and how to get involved. This is where Forever Giving comes in. One of our primary goals is to provide people just like you with a method to get involved, whether through your purchase of Forever's products, or through a one time or a continual direct gift basis. We promise to put your generous contribution to work as you partner with us.

We recognise that every single penny is sacred, and whether you give five pounds or one million pounds, your donation will be treated with the respect your generosity deserves. How much you give is not important. What is important is that you act now and join our fight against the destruction of hope, by partnering with people you know and trust.

Thank you for your support.

The Forever Giving Team.

### Bricks, Rice and Shoes

A Distributor, based in the UK, but who has a large team in Africa, pointed out recently that every time a Distributor places an order of about £200 (retail), this provides, through Forever Giving, the equivalent of a brick for a school, a bowl of rice or a shoe for a child. It makes me think that, as well as helping my customers have a healthier lifestyle and working to protect the environment, I am directly helping the fight against poverty in Africa and in other places around the world.

If you think our prices are high (they're not, but that's a different argument!) then just consider the price children in Africa are paying when we fail to help them.
