

The Wacky Cactus!

FOREVER

TEAMWORK – TOGETHER EVERYONE ACHIEVES MORE!

WINTER keeps trying to make an entrance! What we have all noticed, I am sure, is the seasonal rise in coughs, colds and a particularly nasty chest infection. Good nutrition can help protect us from these. For myself, I succumbed to the chest infection in January, but I believe because I drink **Aloe Vera Gel**, took extra **Bee Propolis** and a course of **Echinacea Supreme**, it took me only 36 hours to recover. I was taken ill on Friday evening, able to go swimming Sunday evening, and ready for work on Monday morning.

Forever Living have launched a new form of Aloe Vera – **Forever Aloe2Go** – in handy, one-a-day sachets. In this newsletter we tell you something about this remarkable product.

Forever Aloe2Go

You have the benefits of Aloe Vera Gel; and you have the sweet, nutritious taste of Pomegranate Power.

Code 270

Forever Living Products has taken the best of both drinks and has combined them into a convenient, single-serving, foil pouch! **Forever Aloe2Go** is ready for you to drink anytime, anywhere – at your desk, out walking, in the car, on the go. Just take a pouch, tear it open at the notch, and drink in the tasty benefits of these two nutritious drinks! Here are our top 10 reasons why you'll want to have Aloe2Go close at hand:

10. The Hunger Pain. Aloe2Go may give you that energy boost **you** need by supporting your body with complex carbohydrates. Aloe2Go can help you to boost energy levels naturally while helping to maintain a healthy body weight.

9. Natural Rejuvenation. One reason Aloe Vera was given its nickname, the "miracle plant" is its ability to assist the rejuvenation of cells and support new cell growth. Why not replenish your cells with the power of Aloe Vera and the potential immune-enhancing Pomegranate and Mangosteen fruits?

8. Daily Skin Maintenance. Aloe Vera adds a rich and ready supply of building materials to support and maintain healthy cells. The skin can use these nutrients daily to help combat the signs of ageing. Open an Aloe2Go pouch and drink in its skin replenishing power.

7. Delicious Taste. Tap into the rich flavours of Mangosteen and Pomegranate along with Aloe, Raspberry, Blackberry, Blueberry and Grape, and you may just tear into an Aloe2Go for its taste alone!

6. Nutritious Ingredients. Aloe Vera Gel contains vitamins C, A, E, B as well as Zinc, Calcium, Copper, Magnesium, Manganese, and Phosphorus. The

Pomegranate is a powerful antioxidant. The Mangosteen is one of the richest sources for Xanthenes, beneficial for the immune system.

5. Soothing Relief. Aloe Vera Gel has twelve natural substances that have been shown to soothe without side-effects. It can also support proper joint and muscle mobility. Mangosteen has been used as a natural soothing aid for centuries.

4. Healthy Digestion. Drinking Aloe2Go helps support bowel regularity and friendly bacteria levels, thereby supporting a healthy digestive tract. Aloe2Go aids the uptake of nutrients, which in turn helps maintain healthy cells.

3. Healthy Cardio Support. The Pomegranate is known as the longevity plant in many cultures. The juice has particularly high antioxidant abilities, effective at supporting healthy cardiovascular function. The Mangosteen also contains xanthenes and other phytonutrients, which are reported to be beneficial to the cardiovascular system.

2. Ultimate Antioxidant Cocktail. It is generally known that the Pomegranate has more antioxidants than blueberries, green tea or wine. Some studies have found that xanthenes, as found in Mangosteen, are even better than vitamins C and E for boosting the body's immune system. Aloe Vera Gel provides natural support for the immune system because of its high content of polysaccharides and other natural immune enhancers.

1. Uncompromising Convenience. Aloe2Go gives you the support your body needs while on the go! Utilising the legendary power of the "Miracle Of Aloe", while unlocking the abundant supply of phytonutrients in the Pomegranate and Mangosteen fruits, finishing off with the combination of potent antioxidant rich fruits and extracts of the Raspberry, Blackberry, Blueberry and Grape, you'll be drinking these pouches daily. Your body will demand a never-ending supply of delicious and fulfilling nourishment, all in one sleek little pouch. **Aloe2Go** is your daily gift to yourself. Congratulations!

Testimonials

High Blood Pressure

My mother has had a high blood pressure problem for a few years now. It came to our attention because she started fainting for no apparent reason, several times in the space of a few weeks. The doctor put her on blood pressure medicines which didn't help and which started giving her other problems on top of the blood pressure, e.g. symptoms of diabetes, and they even started putting tubes inside her to help with treatment.

They removed salt from her diet and this made things even worse, with the fainting becoming more frequent. She was admitted to hospital shortly afterwards and put into a ward which included two people who died, giving a measure of the seriousness it was being given. She was more or less told that the drugs weren't working; she was old and it was likely to kill her.

I recommended the **Aloe Berry Nectar** drink to her about a year ago and she drank it in very low doses (20 ml per day) since then. As a few weeks passed she started feeling better and better, until after about four months she was off all of her medication and did not even bother going for check ups any more saying there was no point, her blood pressure was always normal now.

Energy

I have a customer (age 56) who told me he always felt tired and had no energy. I recommended 60 days on the pure **Aloe Vera Gel** drink and told him I drank it myself for this reason. Within a few days he was saying he felt massively better, he was sleeping very well again, he felt more alert and his overall well-being had gone up dramatically. Two months later and he is still grabbing me when he sees me to tell me how amazing it is. Now he is recommending it to his partner, son and mother.

Peter Agnew

Multi-Maca

One of my customers said that after taking the **Forever Multi-Maca** tablets for two weeks, she wasn't spurning her husband's advances. After three weeks she said she could tell they were working, and after four weeks she said her husband was turning her down!

Carol
