FOREVER

TEAMWORK – TOGETHER EVERYONE ACHIEVES MORE!

WHAT more important time is there to consider the benefits of Aloe Vera, and in particular the very best available, but when you are looking forward to a new member to your family? We all want to give our children the best start in life; good nutrition and safe, effective products can be an important consideration. Not just for babies, but as our children of all ages grow up, we want to keep them safe and healthy. Aloe Vera has been used for thousands of years to do just that; why not find out what it can do for your family?

MUM'S THE WORD

Aloe Vera is now being recognised as making a valuable contribution to the health and well-being of mothers (both during and after pregnancy) and their babies. This is a time when many are concerned about additives, contaminants and protection from infection.

Forever's remarkable range of Aloe Vera products are all safe, natural and GM free, with no use of pesticides or artificial fertilisers. They are just pure and simple products for everyone. How about this for an independent testimony to the use of Aloe Vera.

'Aloe Vera Baby'

"I know of a live and kicking example who has had nothing sinister happen to her by overdoing the Aloe. She is my husband's niece Julia who lives in New York. Her family and friends nick named her the Aloe Vera Baby. Why? Because she would eat it, rub her skin with it, and even add loads of it to her bath water and bathe in it. She just loves it even to this day. Oh! Hi Julie!"

Product Ideas

- * **Aloe Liquid Soap** • Natural moisturising cleanser. Mild and non-irritating. No-tears formula.
- * **Aloe Multi-Purpose Detergent** • Cleans everything in your home from dishes to floors, clothing to windows. Ideal for washing bedding and clothes for babies and others with sensitive skin.
- * **Aloe Vera Gelly** • For all skin problems, soothing and promotes healing, moisturising. Ideal for nappy rash and cradle cap. Good for stretch marks and operation wounds (reduces scarring).
- * **Aloe Moisturising Lotion** • Collagen and elastin to keep skin smooth, soft and elastic – excellent for stretch marks. Anti-aging!
- * **Aloe MSM Gel** • Ideal for painful, stiff joints. Perfect for strains and sprains. Soothes skin conditions such as acne.
- * **Aloe Heat Lotion** • Warming agent for aches, painful joints and sprains. Great for tired aching muscles and feet.
- * **Aloe Vera Gel** • Aloe is a natural healer. Balances the immune system.
- * **Aloe Blossom Herbal Tea** • A soothing, refreshing, caffeine-free herbal drink. Has the power to calm, soothe and restore.

Testimony

Aloe vera is also recognised as beneficial for both high and low blood pressure conditions. I knew about its use to assist with high blood pressure (hypertension) but it was only when my daughter (15) was sent home from school because she had fainted and was diagnosed with low blood pressure that I looked into that too.

Whilst low blood pressure is rarely medically damaging (unless below about 50 systolic) its effects can be distressing: fatigue, headaches, fainting, low energy – and Hannah had all these.

Her doctor prescribed support stockings! I suggested she increased her intake of **Aloe Gel** to about six fluid ounces a day, as well as increasing the **Bee Pollen** she was taking to six a day and the **Nature Min** to three a day.

In just a day or so she was much improved, and seems to have recovered her former energy. The support stockings? They seemed to have no effect at all!

ALLERGIES

It's that time of year again!

Allergic reactions, or 'hay fever', plague many people's lives. Here is our ABC of help for allergy sufferers, children and adults:

- A – is for Aloe Vera.** So good because it is a natural antihistamine. Also, Aloe Vera doesn't cause the common side-effect of drowsiness seen with many conventional antihistamine drugs.
- B – is for Bee Pollen.** Especially good for hay fever sufferers, Bee Pollen taken about six weeks before the expected onset of symptoms can reduce the effect, and in some cases stop it completely.
- C – is for Vitamin C.** FLP's delayed-release Vitamin C formula Absorbent-C is the perfect partner to Bee Pollen and Aloe Vera gel, because Vitamin C, with its ubiquitous rôle as a prophylactic, is also capable of modifying allergic response.

Business Opportunity!

Do you, or does anyone you know, need to earn £100 to £500 extra per week, in their spare time, from home? Mortgage payments gone up? Maybe facing redundancy, again? Would like to stay at home with their new baby? We have an opportunity that might be of interest. Contact your distributor NOW to find out more.

No investment. Full training given. Working with a supportive team. Work as and when you can. Be your own boss. FUN!

Drink just 2 to 4 fl oz of Aloe Vera every day to make a difference to your health and that of your baby.
