

ARGI+

Description and Purpose

L-Arginine is an amino acid that's so potent, scientists refer to it as the 'Miracle Molecule.' This is because our bodies convert L-Arginine into nitric oxide, a molecule that helps blood vessels relax and open wide for greater blood flow.

Greater blood flow supports many important functions in our body:

- Healthy blood pressure levels
- Overall cardiovascular health
- Immune function
- Muscle growth
- Bone & tissue growth & repair
- Male sexual function
- Fat and glucose metabolism
- Anti-ageing hormone production and more

With so many health benefits, ARGI+ provides all the power of L-Arginine, plus:

- Pomegranate – well-known for its strong antioxidant properties
- Red Wine Extract – to help maintain healthy cholesterol levels
- Grape Skin and Berry extracts for cardiovascular and immune system health

At a glance...

- Promotes healthy blood pressure levels
- Proprietary fruit blend adds antioxidant power
- Boosts nitric oxide production

Together, these ingredients create a new generation of supplement – one that supports better health throughout your entire body. Just a scoop of ARGI+ mixed with water or your favourite aloe drink helps provide a performance boost to every part of you. Add optimal health to your family's diet with the power of L-Arginine!
