

Aloe Activator

Description and Purpose

Aloe Activator contains very highly concentrated stabilised aloe vera gel and allantoin, an organic substance that has been shown to aid cell growth and renewal. Aloe Activator is a superb moisturising agent, containing enzymes, amino acids and polysaccharides. It makes the ideal liquid partner to work in combination with our Facial Contour Mask Powder to moisturise, cleanse and condition. Dead skin cells are removed by the mask, leaving new cells to give a fresh, vibrant and more luminous look to the skin. Its pH balance is 4.5, making it gentle enough to use near the eyes.

Aloe Activator is incredibly versatile. Although regarded as a principal component of the Aloe Fleur de Jouvence regime, it is extremely effective for a number of other purposes, such as a skin cleanser and freshener. In this capacity, apply to a cotton ball and wipe the entire face and neck gently and thoroughly until clean.

At a glance...

- Contains aloe vera gel plus allantoin
- Superb moisturising and cleansing agent
- Gentle enough to use near the eyes
- Effective as a cleanser or freshener

Ingredients
