

Aloe Vera Gelly

Description and Purpose

Historically, a major use of aloe vera was to soothe minor skin irritations. Many households kept a live aloe, or 'burn plant' for first-aid use. Essentially identical to the aloe vera's inner leaf, our 100% stabilised aloe vera gel lubricates sensitive tissue safely. Specially prepared for topical application to moisturise, soothe and condition, Aloe Vera Gelly is a thick, translucent gel containing humectants and moisturisers. Readily absorbed by the skin, it soothes without staining clothes.

Aloe Vera Gelly soothes minor skin irritations and soreness. It can also be used on the skin prior to ultrasonic treatment, or after electrolysis. Hairdressers use the Gelly around the hair line before perming and colouring.

From your bathroom cabinet to the first-aid kit, and from the kitchen to the campsite – Aloe Vera Gelly is an ideal companion for skin that needs a little extra care.

At a glance...

- Quickly soothes the skin
- Ideal soother after electrolysis
- Use around hairline when perming or colouring hair
- Does not stain clothes

Note: Suitable for people prone to eczema and psoriasis
