

Forever Kids

Description and Purpose

Give your kids the nutrients they need each day with Forever Kids chewable multivitamins. These fun and delicious multivitamins provide both adults and growing kids ages four and older with the vital vitamins, minerals and phytonutrients they may be lacking.

Phytonutrients are beneficial plant nutrients found in vegetables and fruits. New processing techniques allow us to emulsify, dehydrate and flash-dry raw fruits and vegetables to protect the valuable phytonutrients, vitamins, minerals and enzymes that our bodies need. The result is a multivitamin that tastes great, is fun to eat and complements the range of other supplements that Forever offers.

Formulated without sugar, aspartame, artificial colours or preservatives, the phytonutrient base is taken from such nutritious foods as carrots, acerola, broccoli, spinach, cabbage, apples, cranberries, tomatoes and citrus fruit. Kids will love the natural orange and grape flavours.

At a glance...

- Fun shapes and colours mean kids love them!
- Phytonutrient base taken from the finest raw foods including broccoli, cabbage, spinach and carrots
- No artificial colours or preservatives
- Chewable tablets

Phytonutrients - these are highly-desirable plant nutrients found in fruit and vegetables.

It's the ideal nutritional foundation for all of us in today's fast-paced world. Forever Kids taste great and come in natural orange and grape-flavoured tablets and in animal shapes, so they're especially appealing to children. For those who use the rest of the Forever range, the phytonutrients in Forever Kids complement and complete the basic nutritional foundation.
