

Forever Lean

Description and Purpose

Forever Lean provides two revolutionary ingredients that can help reduce the body's absorption of calories from fat and carbohydrates. The first of these ingredients is a unique, fat-absorbing fibre derived from the cactus plant, *Opuntia ficus-indica*, otherwise known as Indian fig, nopal or prickly pear. Studies have shown that this unique fibre has a very high ability to bind fats, compared to other types of plants.

The other unique ingredient in Forever Lean is a protein specially derived from the beans of the *Phaseolus vulgaris* plant, otherwise known as white kidney beans. This protein works by slowing the body's absorption of sugar in the small intestine by temporarily inhibiting the enzyme activity that converts starches into sugar.

Together these two revolutionary new ingredients can help you succeed in your quest to reach your ideal weight by helping to block the absorption of some of the fat and carb calories you ingest.

The third most effective ingredient in Forever Lean is chromium trichloride. Chromium is a very important trace mineral which helps the body's natural ability to regulate blood sugar by acting as a GTF (glucose tolerance factor) cofactor. This is especially important for normal metabolism.

To maximise the effectiveness of this supplement however, it is important to remember that you should also incorporate a healthy diet and regular exercise into your overall weight control plan in order to achieve and maintain your weight goal.

At a glance...

- Helps block the absorption of calories from fat and carbohydrates
- Chromium helps the body regulate blood sugar for a normal metabolism
- Temporarily inhibits the body's absorption of calories from sugar

Formula Ingredients

Chromium (as chromium trichloride)	120mg
Indian fig extract (Opuntia fiscus-indica) powdered (leaf)	1050mg
White kidney bean extract (Phaseolus vulgaris) powdered	445mg

Other Ingredients

Microcrystalline cellulose, hydroxypropyl methycellulose, water, stearic acid, croscarmellose sodium, silicon dioxide, gellan gum and potassium acetate.

Contents

120 capsules.

Directions

Take 1 capsule with water immediately before meals or snacks - up to 4 times a day.
