

Eye Pencil

Refine your style instantly by giving a subtle new definition to your eyes. Creamy and smooth, our exclusive aloe vera formulation delivers a perfect application every time.

From the top eyelid, apply liner from the outer edge towards the middle, staying as close to your eyelashes as possible. At the middle point, begin to slightly raise the line extending to the outer corner. Fill in with the pencil if needed. For the lower edge of the eye, apply liner only to the centre of the eyelid.
